

Fuel Shock™ Microbicide

Fuel Shock is a liquid oil soluble and water soluble potent broad spectrum microbicide that is designed to prevent and control bacterial and fungal growth in fuel. When boats are placed in dry-dock for winter storage, excess fuel in the vessel can sometimes come into intimate contact with water. Under these conditions the growth of micro-organisms can occur. As winter passes and temperatures begin to get warmer, these micro-organisms can produce dense masses that are capable of clogging filters, pumps and fuel lines. Microbes also release organic acids which can accelerate corrosion of metals that can result in damage to storage tanks and fuel pumping equipment. When added to fuel supplies, Fuel Shock will kill and control any microbial growth present. EPA Registration #1448-171-71246

Neutra™ Fuel Stabilizer

NEUTRA™ ENHANCES ETHANOL BLENDS!

Neutra™ is our best fuel treatment and fuel stabilizer for all types of combustion engines (gasoline, diesel and LP). It cleans injectors and carburetors, improves fuel economy, lubricates cylinders and stabilizes fuel during extended storage. Neutra™ neutralizes the harmful effects of sulfuric acid, which is a by-product of the combustion process. It replaces lost lubricity in low sulfur fuels and is a lead replacement in gasoline. Treatment level: 2 quarts Neutra™ per 100 gallons of fuel. Also available with Cetane booster for faster start-up and more power; specify 192 Neutra™ Plus (for diesel only). With flow improver, specify 192WND (for diesel only).

Supreme 7000™ Synthetic Plus 2-Cycle Oil

Supreme 7000 is formulated for use in all two-cycle engines, including engines with oil injection systems. Supreme 7000 2-cycle oil is a superior 2-cycle oil that withstands a higher heat range than conventional oils (up to 250°F more), and it starts easier than a conventional 2-cycle oil in cold weather. It is a para-synthetic oil, scientifically blended from 100% pure paraffin base oils PLUS the finest quality synthetic base stocks. Supreme 7000 is also blended with TWO proven friction modifiers, Micron Moly® and Penetro®, to improve fuel economy, reduce engine wear, and increase engine life. MEETS TC-W3. EXCEEDS all marine 2-cycle manufacturers' specs.

By Land Or By Sea, No Challenge Is Too Great For Schaeffer's.

"It's not the cost to buy...
it's the cost to use."

Since 1839, business and industry have come to rely on Schaeffer's Specialized Lubricants to handle the really tough lubrication jobs. That's because of the risk involved in using something less than the best.

Schaeffer's has specifically blended a product line highly suited to the boating and marine industries. Whether you're using your boat to cross oceans or for recreating on the lake, Schaeffer's products can help ensure you get the maximum performance.

Changes in the sulfur content of diesel fuel makes Schaeffer's a must to help protect your boat's engine components during winter storage periods as well. Trust Schaeffer's for your valuable vessel. We believe that once you've used Schaeffer's, you'll never trust anything less.

Supreme 7000™ 15W-40 Synthetic Plus Motor Oil

Supreme 7000 is a para-synthetic motor oil that contains TWO proven friction modifiers, Micron Moly® and Penetro®, to improve fuel economy, reduce engine wear and increase engine life. 7000 is formulated using a special additive package that exceeds gas and diesel engine manufacturers' requirements. Exceeds requirements for API, CJ-4, CI-4, CI-4 Plus, SM. Exceeds Ford, GM, Chrysler, all foreign manufacturers' specs. Also available in SAE 30 (specify 702), 10W-30 (specify 703, for gasoline engines only), 5W-30 (specify 701, for gasoline engines only), and 20W-50 Racing Oil (specify 705).

Citrol® Citrus Cleaner & Degreaser

Citrol® is a heavy duty, citrus-based solvent cleaner and degreaser that is environmentally safe, biodegradable and water soluble. It cleans surfaces and cuts through oil, grease, mildew, mold and scum. It is an excellent replacement for hazardous cleaners and degreasers. Citrol® is specially formulated from a combination of organic, citrus-based solvents and multicomponent surfactant-emulsifiers. This unique blend provides Citrol® with the ability to rapidly penetrate and remove a wide range of materials. The strong cleaning power and environmentally-safe ingredients in Citrol® make it ideal for cleaning oils, greases, solvents and adhesives from boat hulls and decks, in or out of the water.

Supreme Gear Lube (Synthetic Plus)

Supreme Gear Lube enables treated equipment to carry heavier loads with reduced frictional wear. Lower units and gears run cooler and quieter. Specialized additives and demulsifiers protect gears from wear and rust, even under severe loads and in wet, contaminated environments. Also available in SAE 75W-90 or 140 (EP. GL-5). 293 is 75W-90. 294 is 140.

Ultra Red EP Multi-Purpose Grease

Ultra Red EP is a versatile, multipurpose extreme pressure grease that is specially formulated for heavy-duty automotive and marine applications. Ultra Red EP is waterproof and protects trailer tires, wheel bearings and other equipment even under the most severe conditions. Available in 420 lb. drums, 120 lb. kegs, 40 lb. pails and tubes (30 tubes per case).
